SHIFTER CABLE SHAFT

SHIFTER BUSH HOUSING

DC12-050P

1. Clip the cup (B) over the end of the shifter cable (A).

2. Place the bush and installer (C) through the cable end and into the hole of the cup.

3. Clamp the assembly with your forefinger and thumb and squeeze until the installer pushes the bushing into the cable end (You will hear a click as it's seated into position).

4. Remove cup and installer off the shifter and bush.

Will also fit:
Ford Fiesta (2002 - 2009)
Focus (2004 - 2009).

NOTE: Kit fitting instructions do not apply to above models as the housing is different.

Simply remove and replace the old bush with the new on these models.

MANUAL GEARBOX SHIFTER CABLE BUSH

DC12-057P

DC12-054P

< Compatible Shifter Lever Shaft.
Outer Diameter: **4.5mm**
Eyelet Inner Diameter: **10mm**

DC12-055P

1. Place the bush (A) in to the shifter cable housing so the four notches enter the shifter lever.

2. Place the bush cup (B) over the top of the bush and use thumb and forefinger to assist in fitting the bush in to the shifter housing.

NOTE: The bush is a *tight* fit over the lever shaft to ensure a secure fit.
